

Tullycarnet
Neighbourhood Renewal Area

Action Plan 2014 - 2015

Tullycarnet Neighbourhood Action Plan

April 2014

Introduction

Tullycarnet Neighbourhood Renewal Area

The Tullycarnet Neighbourhood Renewal area includes approximately 2,502 people and 1,045 households¹. The following baseline audit presents key data provided by DSD using 2001 Census material, recently published statistics derived from NINIS as well as the original Tullycarnet Neighbourhood Partnership paper, 'Needs and Key issues- Developing a vision for Neighbourhood Renewal', to provide the context within which the Neighbourhood Renewal Action Plan needs to be set.

The Tullycarnet ward, which is located on the outskirts of east Belfast in the Castlereagh District Council area, consists of a single 'Super Output Area' (SOA) and eight 'Census Output areas' (COAs) at the most local level. The ward is currently situated within the boundaries of the Eastern Health & Social Services Board and the South Eastern Education & Library Board. The Housing Trust, between 1966 and 1970, built Tullycarnet estate, with final development completed in the early 1970's by the Northern Ireland Housing Executive (NIHE). Originally, the estate was built to accommodate people moving out of inner east Belfast, largely as a result of redevelopment. It is divided by the Kings Road, a main thoroughfare, which makes it more difficult for people living in the upper part of the estate to access facilities and shops located in the lower part of the estate and affects community cohesion

Background

Neighbourhood Renewal is a Government initiative to tackle social deprivation and disadvantage in the 10% most economically and socially deprived neighbourhoods. The Department for Social Development (DSD) is the Government department responsible for the implementation of the Neighbourhood Renewal strategy in Northern Ireland. DSD launched its Neighbourhood Renewal Strategy '*People and Place*' in June

¹ Based on 2001 Census

2004. This identified four strategic objectives for the neighbourhood renewal programme across Northern Ireland. These are:

- **Community renewal** – to develop consistent communities that are able and committed to improving the quality of life in their areas;
- **Economic renewal** – to develop economic activity in the most deprived neighbourhoods and connect them to the wider urban economy;
- **Social renewal** – to improve social conditions for the people who live in the most deprived neighbourhoods through better coordinated public services and the creation of safer environments;
- **Physical renewal** – to help create attractive, safe, sustainable environments in the most deprived neighbourhoods.

This document sets priorities for Tullycarnet NRA for the period from April 2014 – March 2015. Taking account of NINIS statistics, statutory priorities and lessons learnt from the Neighbourhood Renewal Mid-term review report. The Mid-term review highlighted the following in relation to the Tullycarnet Neighbourhood Renewal Area (NRA):

- The population in Tullycarnet has increased by 0.5% contrary to the trend elsewhere. The population is ageing and there has been a significant drop in the number of children in the area
- It appears that unemployment in the area increased in direct proportion to the economic downturn
- Education trends are sending mixed messages – while there are improvements in GCSE there is a trend of under achievement. While more people are passing these are not ‘good’ passes
- In relation to health there was a big spike in deaths under 75 during the period
- Crime stats are good - Tullycarnet is a very safe place to be
- The % of births to teenage mothers has improved from 25% in 2005 to under 5% in 2009

Tullycarnet Neighbourhood Partnership met in February 2014 and has had a series of further meetings and conversations with stakeholders between February and March; these have resulted in an updated Action Plan for the Neighbourhood Renewal that reflects priorities that are valid and relevant for the area, are supported by robust evidence robust and take account of local knowledge.

To ensure that the Action Plan would be guided by a proper assessment of need, an analysis of need in the Neighbourhood Renewal Area (NRA) was first completed in June 05 and has been continuously updated as new information has become available from NISRA.

The Neighbourhood Partnership agreed the following Vision Statement in November 05,

“Tullycarnet will be an attractive place; a community where people feel safe, proud and are actively engaged in developing a positive and sustainable future”.

and identified the high level objectives which it believed were key to addressing the four strategic priorities in Tullycarnet. These objectives then formed the basis for Action Planning and an outline Action Plan was produced in Nov 2006. The Action Plan has been refined and improved since then as a result of targeted consultation with relevant government departments, Castlereagh Borough Council, local community organisations and a series of open community meetings across the area. The most recent review took place in March 2014 and this updated Action Plan reflects the outcome of this process.

Delivery of the Action Plan

The Neighbourhood Partnership has not underestimated the scale of its task. There is a clear acknowledgement by members of the need to build trust, within the Partnership itself, as a first step to developing broader relationships and progressing to the next stage of detailed planning and engagement with the whole community.

To deliver the vision for Tullycarnet there is a need for:

- Positive leadership;
- A change in ethos from seeking grant aid to securing investment;
- Promotion of a positive image;
- New relationships;
- A robust plan that allows for change and is sufficiently flexible to respond to needs and opportunities during course of NR;
- A willingness to change working practices and a shared commitment to pooling resources and expertise.

If it is to succeed in delivering demonstrable improvements against the strategic priorities as set out in the Vision for Tullycarnet, the Partnership recognises that the Action Plan needs to form the basis for a cohesive development agenda with 'buy in' from all of the people, organisations and agencies that can bring resources, relationships or expertise to the process.

In order to ensure that the Action Plan is a working document, the Neighbourhood Partnership will lead the establishment of four subgroups for moving forward from 2014-2015: Economic development; physical development; education; and youth. Each subgroup, with membership drawn from the Partnership and external organisations as appropriate, will meet regularly to ensure delivery against each individual themes and report back to the full Partnership on progress and potential amendments to the plan.

The Action Plan is also regularly reviewed to reflect changing statistics and other material, which builds on the baseline position and in particular takes account of the

high levels of need in relation to education and skills, the physical living environment and issues associated poor health in the area.

The following tables include a list of proposed actions against the four strategic objectives for Neighbourhood Renewal. Each is associated with a description of the issue that is to be addressed and the organisation(s) that are to take lead responsibility for delivery.

Setting the Neighbourhood Renewal Priorities

Physical Renewal - Context

Tullycarnet ward is placed within some of the worst in Northern Ireland in relation to Noble's living environment domain.

Following the most recent review of the action plan, there is a new momentum around physical regeneration for the area. The NP recognised that it has perhaps at times missed opportunities to avail of funding for the development of public and open spaces. In terms of moving forward the NP has established a new inter-agency subgroup to ensure the delivery of physical development within the NRA.

The Physical Renewal objectives identified by the Neighbourhood Partnership seek to:

- Ensure connections and input to proposals for local development
- Ensure that planning for the estate considers road safety and appropriate consideration is given to lighting, subways etc.
- Provide safe places to play;
- Encourage more effective links to key facilities and services;
- Provide better signage to local amenities;
- Identify opportunities for renewal through E-Way

The five strategic priority areas for the regeneration of Tullycarnet in East Belfast remain the same:

- Maximising use of publicly owned buildings
- Improved provision of social housing for the elderly
- Maximise the opportunities presented by current and/or pending infrastructure projects
- Development of the public realm
- Development of open spaces and parks

Continuing dialogue with the local community remains important to ensure residents needs continue to be met. The objective of the NP is that all those who wish to have an opportunity to remain in the area can. This has clearly become a more demanding task as the current recession impacts on the housing market locally. Much of the more visible change in Tullycarnet over recent years in relation to the physical environment has been as a result of environmental improvements schemes initiated by Belfast Regeneration Office (BRO), with schemes being taken forward to develop the subways. The NP has committed to promoting new streetscape improvements in areas that have not previously benefited in NRA through other potential various sources of funding.

Desired Outcome	Action Sought	Partners
Strategic Co-ordination of Physical improvements across the NRA Maximising use of publicly owned buildings/shops	Establish a Physical Regeneration sub – group which will:- Co-ordinate discussions on physical regeneration opportunities in the area. Identify opportunities for increasing use of publicly owned properties in the area	TNP Physical Development Subgroup TNP Physical Development Subgroup
Improved provision of Social Housing for the elderly	Facilitate community survey to establish latent demand	TNP Physical Development Subgroup
Maximise the opportunities presented by current infrastructure projects	Provide support for the ongoing development of Hanwood Contribute to the existing plans for the Ice Bowl/East Point site	Hanwood Board TNP TNC CBC TNP TNP Physical Development Subgroup
Development of the public realm across the NRA	Support the delivery of identified environmental initiatives Maintenance of public space	TNP Physical Development Subgroup TNP Physical Development Subgroup
Development of open spaces and parks in the NRA	Completion of the Tullycarnet Park development Develop links with BCC parks Department - identify ways to link to their parks events – park run, seasonal activities etc. Develop ideas for short to medium term use of underused and derelict spaces in the NRA	TNP Physical Development Subgroup Hanwood TNP Paul Carland TNP Physical Development Subgroup
Improved signage in the NRA for visitors to the area	Ensure that Tullycarnet facilities are included in any future city-wide signage plan	TNP Physical Development Subgroup

Social Renewal Context

The effective delivery of the key public services of education and health is a critical factor in the success of the Neighbourhood Renewal Programme. How this can be achieved has been a particularly challenging element of developing the Action Plan, particularly in the context of the continued uncertainty surrounding the planned Review of Public Administration. In the Tullycarnet Neighbourhood Partnership Vision Statement the following objectives for Social Renewal were identified:

- Ensuring that the school is developed as a focus for community
- Building a 'whole community' approach to education.
- Reducing fear, creating a safe environment and reducing levels of anti-social behaviour
- Creating a sense of pride in the estate;
- Offering support for families and parents to promote positive parenting and foster a safer home environment;
- Investing in the learning and development of children and young people;
- Ensuring that the Neighbourhood Partnership has effective links to the Community Safety Partnership and DPP;
- Ensuring an integrated approach to health through Tullycarnet Healthy Neighbourhood Project and EBCHIP;
- Promoting a holistic approach to health and well being;
- Providing local facilities to encourage young people's involvement in sport and recreation;
- Encouraging creativity and links to community arts initiatives;
- Valuing and promote creative opportunities for play, including for children with special needs;
- Ensuring support for basic skills provision and vocational training opportunities
- Ensuring the inclusion of the most vulnerable groups i.e. the elderly, lone parents and those with special needs.

Low levels of educational attainment are a reality for too many children in the area. Levels of educational attainment amongst adults are also a concern, particularly given the loss of traditional jobs associated with industries that have shown dramatic decline

An Education Strategy for East Belfast was produced in 2009 with a number of recommendations for the NRA; particularly in relation to parental involvement in education; these have been included in this Action Plan. It is clear that in the NRA schools have suffered from under investment while communities have been redeveloped around them and many parents in these communities have been unconvinced of the potential of education to improve their quality of life.

The Neighbourhood Partnership has acknowledged that Government policy has tended in the past to focus on short-term initiatives and programmes that reflect a lack of continuity of resources targeted at their specific needs. There has been insufficient linkage between these programmes and a need to raise achievement, insufficient monitoring of the effects of the programmes and poor targeting to ensure that those most in need of the provision actually were in receipt of its benefits. The NP was recently awarded Department of Education (DE) funding through SEELB for a Community Education Initiative Programme. This has been developed through the NP education subgroup and is therefore vital for the Partnership to build on as part of a broader NR programme that will maximise resources, avoid duplication and secure more effective relationships between schools and community providers.

Through the funding of the community regeneration officer for youth in Charter NI, attempts will be made to develop a Youth Strategy for the area. The youth providers forum was recently developed to ensure delivery of local programmes focused on recreation, key life skills and personal development, which in turn will be linked to the Strategic Plan.

There has been a significant array of changes impacting on health; outlined in the 'Transforming Your Care' agenda. A great deal of work has been undertaken locally by both East Belfast Partnership and East Belfast Community Development Agency to ensure that groups and health programmes within the NRA are aligned with, and

benefiting from this new context. This has resulted in the development of the East Belfast Health Framework with five priority themes: Healthy hearts; Healthy bodies; Healthy minds; Healthy relationships; Healthy neighbourhoods. The Neighbourhood Partnership will be working to ensure that local activities are aligned with the Framework as appropriate and that groups within the NRA are working collaboratively on this shared purpose.

Desired Outcome	Action Sought	Partners
<p>Raising the value of education – improved engagement of parents/ children and schools</p> <p>Improved education outcomes for children in the NRA</p>	<p>Provide support for education sub group focused on improving attainment in the NRA</p> <p>Support groups to secure resources and co-ordinate education initiatives within the community.</p> <p>Support schools to secure resources for delivering programmes and approaches to involve parents in their children’s education</p> <p>Support local groups in developing a co-ordinated approach /project that is focussed on improving key skills for young people in the area including personal development and life skills.</p> <p>Additional support for attendance, achievement and engagement at post-primary level</p> <p>Provide support for groups working with children with special needs and ensuring all local provision and opportunities are accessible to children with special need</p>	<p>TNP</p> <p>TNP Education Subgroup</p> <p>South Eastern Education and Library Board (SEELB) TNP Education Subgroup TNC Charter</p> <p>SEELB TNP Education Subgroup TNC Charter</p> <p>SEELB TNP Education Subgroup TNC Charter</p> <p>TNP Education Subgroup TNC</p>

<p>Co-ordinated and accessible support for early years provision</p>	<p>Support children and parents in making successful transitions between early years settings</p> <p>Ensure all children in the NRA have access to high quality pre-school provision</p> <p>Support families to improve parenting skills and involvement in children's early education</p>	<p>TNP Education Subgroup Tullycarnet Support Services (TSS) Barnardos Tullycarnet Local Commissioning Working Group</p> <p>TNP Education Subgroup Tullycarnet Support Services (TSS) Barnardos Tullycarnet Local Commissioning Working Group</p> <p>TNP Education Subgroup Tullycarnet Support Services (TSS) Barnardos Tullycarnet Local Commissioning Working Group</p>
<p>Improved collaboration across the Youth sector and increased services</p>	<p>Support the work and agenda of the Youth Forum</p> <p>Support the development of a Strategic Plan for young people in the NRA</p> <p>Development of local programmes focused on recreation, key life skills and personal development linked to Strategic Plan</p> <p>Better signposting to services for young people</p> <p>Support for the development of an Action Plan for young people in the NRA</p>	<p>TNP Youth Subgroup SEELB Charter</p> <p>TNP Youth Subgroup SEELB Charter</p> <p>TNP Youth Subgroup SEELB Charter</p> <p>TNP Youth Subgroup SEELB Charter</p> <p>TNP Youth Subgroup SEELB Charter</p>

Residents of the NRA living longer healthier lives	Support the actions developed under the East Belfast Health Framework 5 themes: Healthy Hearts Healthy Minds Healthy Bodies Healthy Neighbourhoods Healthy Relationships	TNP TNC
Health priorities in the Tullycarnet NRA are fully connected to the wider Health Agenda in the city	Priorities are identified and reviewed based on a local needs analysis	TNC TNC
	Health focused groups in the area are linked to and participate in appropriate forums	TNC
	Support emotional wellbeing to improve learning potential	TNC
	Improved links to the East Belfast Health Framework and key Health agencies	TNP TNC
	Identify and support opportunities to connect Tullycarnet into the Connswater Community Greenway project	

Community Renewal Context

The Neighbourhood Partnership has acknowledged that a key challenge within community renewal is to build participation and the capacity of local communities to become more involved in decision-making. In the TNP Vision Statement the following high-level objectives for community renewal were identified:

- Securing the engagement of the whole community
- Building relationships and promote a shared understanding
- Building a community identity;
- Improving communication across the whole community;
- Ensuring that there is meaningful consultation;
- Developing volunteers and provide ongoing support;
- Building a learning community, harnessing undiscovered skills;
- Promoting local, connected solutions to build community capacity.

The Neighbourhood Partnership is committed to ensuring that all communities have equal access to opportunities arising from NR and other key government programmes aimed at improving quality of life for people in disadvantaged communities. Without well-informed and connected local leadership the Tullycarnet community are at a distinct disadvantage. NR supports key groups supported within the NRA to contribute significantly to keeping local residents connected to developments and benefitting from new opportunities.

The original Action Plan had promoted the idea of consolidating this work through establishing a team of Neighbourhood Coordinators working with other key staff in the NRA to ensure that all areas are equally connected to the NR programme and provide an effective way of sharing information, and promoting joint solutions to local issues. While the NP has not been able to secure resources for this; individuals supported under the Neighbourhood Renewal Programme have been able to work together on specific issues; bringing benefits across the area. It is expected that this collaboration will increase as the NR programme is taken forward and the transition to the new

structures planned in Belfast City Council, within their Community Planning remit, take shape.

Desired Outcome	Action Sought	Partners
Co-ordinate the delivery of the Neighbourhood Renewal Action Plan	<p>Ensure the on-going commitment of key partners to delivering the Action Plan</p> <p>Secure resources for delivering on priorities identified in the Action Plan</p>	<p>Tullycarnet Neighbourhood Partnership (TNP)</p> <p>TNP</p>
Build a Confident Community	<p>Encourage local groups/ representatives to participate in capacity building</p> <p>Secure resources to enable local groups to build their capacity and develop their outreach services to improve participation</p>	<p>Castlereagh Borough Council (CBC) Belfast City Council (BCC) TNP</p> <p>Tullycarnet Neighbourhood Collective (TNC) TNP</p>
Improve connections between Tullycarnet and other parts of East Belfast	<p>Promote opportunities to connect Tullycarnet with the wider east Belfast community and beyond</p> <p>Encourage groups to engage in training opportunities provided by both Castlereagh and Belfast councils</p> <p>Ensure that Tullycarnet is well positioned to benefit from the RPA changes – develop new relationships.</p>	<p>TNP</p> <p>CBC BCC TNP</p> <p>Paul Carland</p>

Economic Renewal Context

The 2011 Census indicates that average weekly earnings within East Belfast are the lowest in the city, with a difference of forty-five pounds per week between the East Belfast average and that found in West Belfast. This suggests that while the level of employment in East is fairly good in relative terms, the nature of that employment may be characterised by more part-time and low paid work when compared with other places. The Census also illustrated that 20.72% of unemployed people were aged 50 or over in East Belfast compared to 16.71% in North, 14.32% in South and 13.10% in West. This suggests that there is a large pool of people living in East Belfast who could benefit from reskilling and an employer base that welcomes older workers.

Following the most recent review of the action plan, there is a new momentum around economic development for the area. The NP recognised that it has perhaps at times missed opportunities to be better connected in terms of employability and economic development. There have been several attempts to support a more collaborative approach to employability and economic development, with limited success. However, the NP recognises that there is a need for this to continue, particularly due to the changes in Council's responsibility for economic development, under RPA. In terms of moving forward the NP has established a new inter-agency subgroup to ensure the delivery of economic development within the NRA. The NP agreed to reestablish the economic development subgroup to provide a focus on employability and economic development. The TNP economic development subgroup will involve various training providers and those delivering employability skills. The NP is committed to continuing to work with all of the interested parties to deliver economic development within the NRA.

In the TNP Vision Statement the following high-level objectives for economic renewal were identified:

- Providing support for completion of the Hanwood Social Economy Project; including:

- Support and assistance to community groups considering starting up their own businesses;
 - An enterprise park with seventeen office/light industrial units;
 - Petrol station/supermarket facility.
- Ensuring access to reasonably paid employment;
 - Encouraging links with key investors and private developers;
 - Identifying training and employment potential outside the local area;
 - Identifying skills gaps and barriers to employment;
 - Ensuring appropriate progression routes and making appropriate links to the Further Education sector;
 - Proactively marketing the skill base and highlighting positive stories and local role models;
 - Providing support for good information and support so that people can make informed choices about potential employment;
 - Identifying the current level of commitment to economic renewal through statutory organisations and their plans;
 - Support for the development of existing community businesses.

The Neighbourhood Action Plan reflects these priorities and proposes to draw on support from all the local training providers to further articulate the needs of the area. The role of the East Belfast Partnership is central to delivery of the actions that are outlined in this section as it has previously successfully engaged all the key stakeholders. The Neighbourhood Partnership are committed to supporting this work to ensure that effective mechanisms are in place to communicate new opportunities to target groups and ensure these are accessed by local unemployed. It is expected that this area of work will continue to be a priority as the recession continues to impact on those most distanced from the labour market. Securing new partnerships and relationships between the Department of Education and Learning (DEL), local employers and the unemployed will be vital.

Desired Outcome	Action Sought	Partners
Effective networks and mechanisms to ensure that new opportunities are communicated to target groups	Structure established to ensure active and effective information sharing of opportunities	TNP Charter
Increased numbers of residents within the NRA accessing employment	<p>Strategic links established with DEL and local training providers to secure local access to employability initiatives</p> <p>Support initiatives aimed at promoting opportunities available to local people</p> <p>Partnerships with new employers –established to secure access for long term unemployed from NRA</p> <p>Arrange an annual employment opportunities event for local unemployed</p> <p>Ensure residents of Tullycarnet are connected to new employment opportunities in Health Hub, Ice Bowl and other developments in the locality</p>	<p>TNP Economic Development Subgroup GEMs</p> <p>TNP Economic Development Subgroup</p> <p>TNP Economic Development Subgroup</p> <p>TNP Economic Development Subgroup</p> <p>TNP Economic Development Subgroup</p>
More people from the NRA training in business skills and engaging in new business initiatives	<p>Ensure that available opportunities are communicated and promoted appropriately and successfully</p> <p>Support the delivery of essential skills and other programmes designed to improve employability</p> <p>Support individuals and groups within the NRA to access employability and business development programmes offered by CBC and CE</p> <p>Promote local participation in programmes focused on entrepreneurship and self employment</p>	<p>TNP Economic Development Subgroup</p> <p>TNP Economic Development Subgroup</p> <p>TNP Economic Development Subgroup</p> <p>TNP Economic Development Subgroup</p>
Increased level of Social Economy activity in the NRA	Identify service gaps and explore the opportunity to develop these within a social economy structure i.e. childcare	TNP Economic Development Subgroup
More opportunities for local young people in the NEETS category	Identify agencies and organisations providing opportunities for young people NEETS and provide support to these	TNP Economic Development Subgroup GEMs Caroline Birch

NISRA Statistics

The table below shows **Small Area Population Estimates (2008)** for **Tullycarnet** NRA and shows the % change from 2001 for a range of age bands for both males and females:

Sex	Female					Male					Total
	0-15	16-39	40-59	60+	Females	0-15	16-39	40-64	65+	Males	
Population Estimates 2008	251	414	276	240	1,180	253	338	293	126	1,010	2,191
% Population Change 2001-2008	-10	+2	-1.4	+15.4	0.6	-11.5	+2.1	+0.7	+27.3	+0.3	0.5

The table below shows Births data for **Tullycarnet** NRA:

	2005	2006	2007	2008	2009
Number of Births	26	38	39	36	26
Birth Rate/ 1000 (Total Pop)	12	17.9	18.2	16.4	11.9
Births Per 1000 (Females 16-39*)	65.3	98.2	99.2	87	62.8
% of Births to Unmarried Mothers	69.2	71.1	69.2	69.4	57.7
% of Births to Teenage Mothers (13-19)	19.2	5.3	10.3	11.1	3.8

* Females 16-39 figures from Small Area Population Estimates. Less than 3.5% births in Northern Ireland fall outside this age band. Actual rates given may be slightly lower than the figures shown. P = Provisional.

The table below shows Child Benefit Claimants data for **Tullycarnet** NRA:

	2001	2002	2003	2004	2005	2006	2007	2008	2009
Child Benefit Claimants (Families)	346	342	343	347	341	329	327	333	314

The table below shows the number Retirement Pension (State Pensions) for **Tullycarnet** NRA:

	2005	2006	2007	2008	2009	2010
Retirement Pension Claimants	305	307	320	321	334	333
% Retirement Pension Claimants (Of Total Population)	14.1	14.4	15	14.7	15.2	15.2

According to the **2001 Census**, the population of **Tullycarnet** NRA on Census day (29th April 2001) was 2,173 people. The demographic characteristics of the people living in **Tullycarnet** NRA was as follows:

- 57.3% were aged 16-59 years;
- 16.4% were aged 60 and over;
- 46.2% of the population were male and 53.8% were female;
- 2.8% were from a Catholic Community Background;
- 92.9% were from a 'Protestant and Other Christian (including Christian related)' Community Background;
- 32.4% of persons aged 16 and over were single (never married);
- 19% of households were lone parent households with dependent children and
- 11.5% of households were lone pensioner households.

Multiple Deprivation Measures 2010:

There are 7 output areas used to produce statistics for **Tullycarnet** NRA. Of the constituent OAs, approximately 86% fall within the top third i.e. have a rank less than 1674 out of the possible 5022 ranks at OA level. The most deprived OA in **Tullycarnet** NRA is 95II210005 with a MDM rank of 654. This Output area sits within **Tullycarnet** Super Output Area and **Tullycarnet** Electoral Ward. To see how these output areas relate to the actual **Tullycarnet** NRA, please navigate to the Neighbourhood Renewal Map Catalogue Section.

Access to Services:

Deprivation 2010 - Proximity to Services

The table below shows average estimated travel time in minutes to a range of services for **Tullycarnet** NRA based on the proximity to services domain.

	Tullycarnet NR Area	Belfast Regen.Of fice (BRO)	North West Devel. Office (NWDO)	Regiona l Devel. Office (RDO)	All NR Are as	Non- NR Areas	North ern Irelan d
GP PREMISES	1.38	1.08	1.49	1.57	1.28	3.19	2.90

% Leavers 5+ GCSEs (A-C)	25.7	30	26.7	18.9	22.2	24.7
% No GCSEs	8.6	10	10	0	0	6

	Percentage
Leavers 5+ GCSEs (A-C) Inc. Eng & Maths 2008/09	<27.7
KS2 - Achieving level 4 or above English 2009/10	61.5
KS2 - Achieving level 4 or above Maths 2009/10	46.2

Key Stage data are based on school location.
School leavers are based on pupil residential postcode.

According to the 2001 Census, looking at the population aged 16-74 living in **Tullycarnet** NRA:

- 59.1% had no qualifications;
- 4.1% had degree level or higher qualifications;

The age breakdown of qualifications are as follows:

Age Group	% No Qualifications
16-19	75.4
20-29	25.4
30-44	50.9
45-59	79.9
60-74	91.2
All (16-74)	59.1

Employment & Income Deprivation:

Employment Deprivation:

- The Deprivation 2010 Employment Score for **Tullycarnet** is 0.16

The **Employment Score** measures the proportion of the NRA working age population in receipt of an employment related benefit, for example, unemployment claimant count and incapacity benefit.

The table below shows the number of Employee Jobs from the Biennial Census of Employment

	2001	2003	2005	2007	2009
Employee Jobs	35	41	46	43	[-]

Income Deprivation:

- The Deprivation 2010 Income Score for **Tullycarnet** is 0.38

The **Income Score** measures the proportion of the Output Area population living in households in receipt of an income related benefit. e.g. income support, state pension credit, housing benefit, working/ child tax credit. To get figures at the Neighbourhood Renewal Area level, the population weighted average of all output areas for this

Neighbourhood Renewal Area were calculated using the small area population estimates (2008).

According to the **2001 Census**, looking at the population aged 16-74 living in **Tullycarnet** NRA:

- 56.8% were economically active, 43.2% were economically inactive and
- 6.5% were unemployed, of these 38.8% were long-term unemployed.

The tables below show the number of Job Seekers Allowance (Contribution + Income Based) Retirement Pension, Pension Credit, Income Support and Housing Benefit claimants for **Tullycarnet** NRA:

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
Job Seekers Allowance	91	70	78	85	50	52	51	43	48	102
% Job Seekers Allowance (Pop 16+)	7.0	5.3	5.9	6.4	3.8	4.1	4.0	3.3	3.6	7.7

% Pension Credit / (Total Pop)	-	-	-	-	5.5	6.0	6.3	6.3	6.1	6.3
% Pension Credit / (Pop Females 59+, Males 64+)	-	-	-	-	34.7	36.4	37.2	37.4	36.6	37.7

Housing: The table below shows the number of Housing Benefit Claimants.

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
Housing Benefit Claimants	406	392	368	357	353	357	341	336	339	361
Housing Benefit Claimant Rate (Population 16+)	25.1	23.8	22.3	21.4	21.4	21.9	20.7	19.9	20.1	21.4

On Census Day 29th April 2001 there were 921 households in **Tullycarnet** NRA. Of these households:

- 41.5% were owner occupied and 58.5% were rented;
- 12.6% were owned outright;
- 3.3% of Households were without central heating or without sole use of bath/shower/toilet or without both and
- 7.1% of Households had an occupancy rating of -1 or less.

The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms)
